Subject: Microsoft Settlement

I would like for you to have a real settlement with Microsoft.
They have been pushing there software down our throats for way to long.
I use Linux as my home OS just to keep away from Microsoft. Allot of
great software is
available for windows and I don't use it because I don't want to get
caught in the Microsoft trap.
So I use Linux at this time and I would like to ask for you to make it
clear that a PC from
A OEM can ship with any OS and the OEM not get charged for Windows when
it is not even on a computer !!!
You should also stop there browser monopoly NOW !!!! Netscape is a great
browser but many people will
never see this software because of Microsoft's way's
